

Gear Drive IBC Mounted Mixers

P/N 27-07GA ¾ HP AIR GEAR DRIVE IBC TOTE MIXER

Price: \$3,575.00

Product Description

Includes all enhanced features standard in one model. This gear-reduced unit provides torque needed for mixing medium to heavy viscosity materials, such as slurries, polymers, inks, and coatings, as well as suspending settled particles.

Key Features

- Variable speed air motor for maximum flexibility
- Gear-reduced drive delivers higher torque for heavier viscosity work
- Two 11" folding impellers enter through 6" tote openings
- All enhanced features included standard
- Push-button adjustable J-Hooks clamp directly to various cage sizes
- Forklift lifting channels standard for easy maneuverability
- Expandable bracket mount fits totes 34"-48" wide
- Unit comes complete with shaft, impeller(s), and bracket
- All fixed impellers and folding impellers are collar-clamped to drive shaft - no set screws to prevent shaft damage
- 316SS wetted components for chemical resistance
- Mounting bracket has durable powder coat finish

Performance

Drive Type: Gear drive

Speed Control: Variable speed

Suitable Viscosity: Medium to heavy

Typical Materials: Slurries, polymers, inks, coatings

Application: Mixing / particle suspension

Motor

Horsepower: 3/4 HP

Power Source: Air (pneumatic)

Speed: Variable

Mechanical

Shaft-to-Drive Connection: Clamp-on coupler

Gear Reducer: Yes

Impeller Quantity: 2

Impeller Diameter: 11"

Impeller Style: Folding

Impeller Entry Diameter: 4" (folded)

Impeller Attachment: Collar clamps

Mount Type: Expandable bracket, J-Hook clamp

Tote Compatibility: Fits totes 34"-48" wide, various cage sizes

Lifting: Forklift channels standard

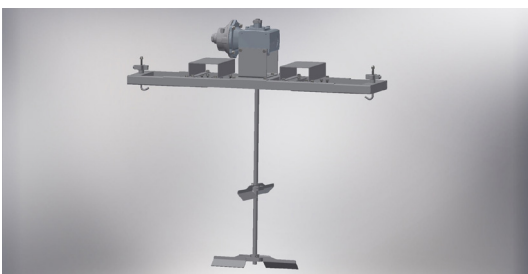

Construction Materials

Shaft: 316 Stainless Steel

Coupler: 316 Stainless Steel

Impellers: 316 Stainless Steel

Bracket Components: Powder coated
